Crawford Codex of the Book of Revelation

Second Edition (Transcription and Translation)
This is a complete transcript of the 'Crawford' codex of the Book of Revelation, excepting vowel points (because vowel points were not utilized when the Book of Revelation was written). I carefully prepared and finalized this typographical reproduction utilizing high resolution images of the original codex, obtained directly from the University of Manchester (Special Collections). I'd also like to give special thanks to J.S. Bernal-LaGrew for his scribal review of my 1st edition. I am pleased to publish this work with no copyright or license restriction whatsoever. It is Public Domain.
